About Stellar Beauty

Head office / Factory
No.21, Kung Chen South Rd., Chi-Tu District,
Keelung, City Taiwan, 20647, R.O.C.
TEL | +886-2-2452-2898
FAX | +886-2-2451-2699

Bestdisc Technology Corp.

June, 1999
-Start to provide
optical media recording

July, 2000
-Expansion of
DVD production lines

April, 2007
-Expansion of
Blue-Ray production lines

June, 2010
-Start to provide
LED Products

September, 2014
- Set up a new company named
"Stellar Beauty Biotech Crop."
- Start to provide cosmetic products
- Create the ISO22716 (GMP) plant

Stellar Beauty Biotech Crop.

March, 2018
Coating service

Sincere

Sincere attitude is our commitment to customers.

Happiness

We create and produce the product.
which combine the happiness and confidence.

Stellar Beauty

SPIRIT

Quality

We assume client's brand is our brand.

Innovation

We try our best to achieve your goal.

Dual-Certified

- ✓ May, 2015 Obtained ISO 9001 Certificate
- ✓ May, 2015 Obtained GMP-ISO 22716 Certificate
- ✓ November, 2015 Obtained On-site Pharmacist Certificate

**Class 100,000
Clean Room**

Foundry Category

Liquid Product Series

Face	Body
Facial cleansing gel	Spray
Toner	Essence
Essence	Hydrogel
Hydrogel/Jelly	
Washing gel	

Emulsion Product Series

Face	Body
Makeup remover	Body wash
Facial cleanser	Body lotion
Lotion	Hand cream
Cream	Foot cream
Scrub cream	Massage cream
	Scrub cream
	Sunscreen

Oil Product Series

Face	Body
Beauty oil	Massage Oil
Makeup remover	Essential Oil
Hair Oil	Body Oil

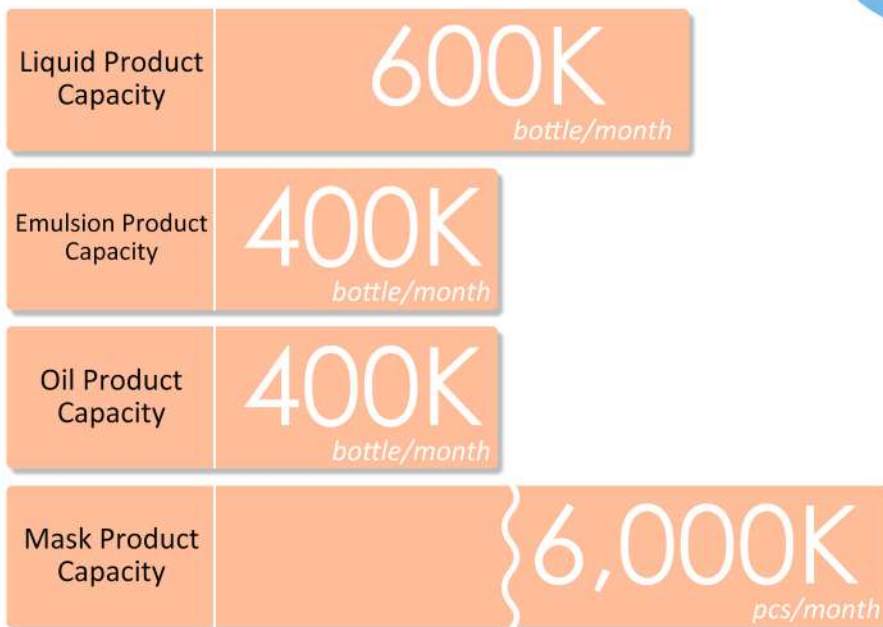

Mask Product Series

Mask	Body parts
Cellulose fiber	Eye masks
non-woven fabric	Cheek masks
Cream masks	Neck masks
Mud masks	Hand masks
Gel masks	Foot masks
	Leg masks

Foundry Capacity

OEM/ODM

Intellectual Property Rights

All workers are required to sign NDA on the starting day.

Restrictions on the department access control system.

Video surveillance with 400 security cameras.

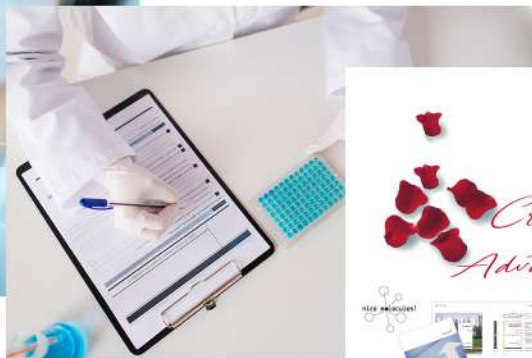

Feature of Raw Materials

We insist on premium quality of raw materials

Medical and efficient patented formula.

Selected certified organic ingredients.

World-renowned raw materials suppliers.

Factory and Equipment

4694m² Factory ground floor area. 12561m² Total floor area. 4462m² Skincare production area.

Class 100,000 clean room. International GMP standard. Fully automated machine.

Entire factory use LED lighting. Energy saving air condition. ECO Friendly.

節能減碳行動標章

Cleaning, washing, sterilizer/Equipments

Ultrasonic Cleaners

Bottle Washing Machine
(Glass)

Automatic Bottle Air Shower
Machine (Plastic)

Ozone Sterilization Machine

Liquid, emulsion, oil usage/Mixing machine

Homogenizer

250 Liter

Vacuum Emulsifying Machine

380 Liter

Vacuum Emulsifying Machine

Masks usage/Forming, filling, folding, printing, sealing machine

Automatic fabric cutting and folding machine

Automatic Filling & Sealing Machine

Automatic folding machine.

Bottles usage/Filling,sealing machine

Minor Quantity Filling Machine

Semiautomatic Filling Machine

Microchip Controlled Filling Machine

Automatic Bottling and Capping System

Automatic Filling Sealing Machine

Patches/Coating,forming,bagging

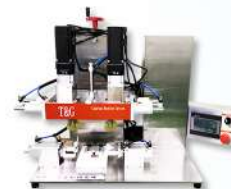

Coating Machine

Roll Cutting Machine

Bottles usage/Capping,sealing machine

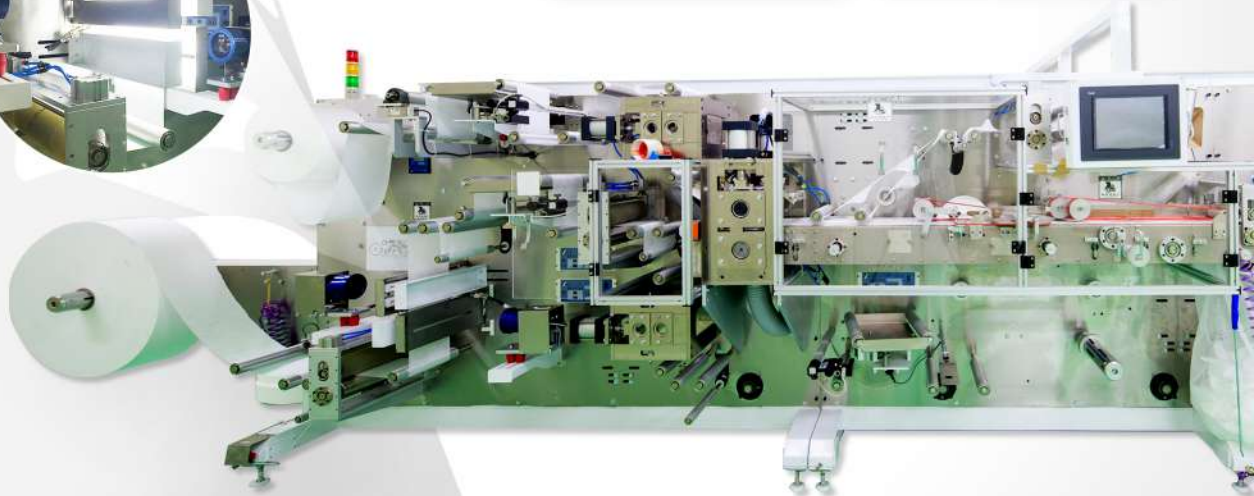

Semi-automatic Capping Machine

Automatic Aluminum Foil Sealing Machine

AUTOMATIC FABRIC CUTTING AND FOLDING MACHINE FOR HIGH-QUALITY MASK

Fully automatic facial mask cutting and folding system with stain detection.

A photograph of industrial machinery, likely a roll forming line, with a white coating. The machinery is complex, with various rollers and guides. The white coating is applied to the metal surfaces, creating a clean, bright appearance. The background is dark, making the white coating stand out.

NEW Foundry Product

Coating • Roll Forming

Coating Series

Patch Series

Teeth whitening strips

Whitening Patch

Hydrogel Mask

Cooling/Heating Patch

Moisturizing Patch

- ✓ Qualified for GMP standard.
- ✓ Provide stable production capability and good quality with the newest automatic machine.
- ✓ One stop Manufacturing service, coating, fitting, slitting, packing.
- ✓ Comply with government emission regulations - ECO Friendly

We devote ourselves to take good care of the earth with our own environment awareness. In coating process, we find our ways to prevent and control the air pollution by using the newest equipment gathering and exhausting emissions all at once. During the high temperature production process it can minimize the danger to be safer than ever.

Roll Cutting Machine

Automatically forming & bagging in one system.

Coating Machine

Hydrogel discharge, coating, pulling, rollcutting. With one shot process. Electronic temperature control and power saving.

QC Department

Quality Assurance

Our company set up QC lab and Microorganism Examination Room of Pharmaceutical factory grade for Quality Control Department.

Multiple examination devices at pharmaceutical factory grade.

Quality Control Process

3-Step Inspection Process

Product inspection :

Physical testing 、 Package testing 、 Environmental monitoring 、
New product stability test 、 Microbiological examination

RD Department

Research and Development

Professional R&D Services

Stellar Beauty's R&D Team(10 people)

Attraction Marketing

- Requested formula features.
- Special formula design and development

Custom Formulation

- Formula designed in accordance with regulations of different countries
- Newest ingredient information on the market.

Functional Test

- Cycle testing 、 package testing
、 centrifuge testing 、 physical testing.
- All in one skin microcosmic analysis to test the production function.

Laboratory Equipment

Vacuum homogenizing emulsifier

Emulsified formula

2kg vacuum
bottle

High speed agitator(Heating mixer)

Liquid & cream formula

Work with heating mixer

Homogenizer

Liquid & cream formula

Micro dermal examiner

50x optical magnification

Auxiliary examiner can detect 8 major skin conditions along with digitalized data to compare the difference between before and after.

Hydro-oil examiner

Detects dermal composition

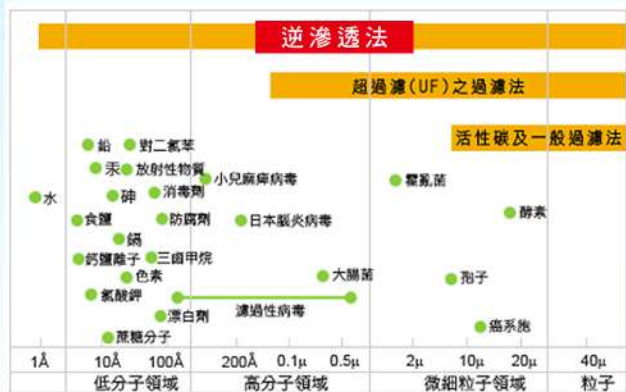

Pure Water Equipment

European Pharmacopoeia 8.0 standard water purifying system

Antiseptic pipeline configuration

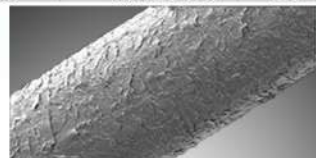

1. Circulated Pipeline
2. Anaerobic Welding
3. Endoscope Examination
4. Microorganism Control
5. OD film Blockage
6. Special Treating Process of Wetted Surface
7. Tanks Designed with Spray Balls
8. Tanks Designed with Electronic Heating Breather
9. Flow Speed Management

Reverse Osmosis Membrane

0.0001micron

Equal to 5/100,000 diameter of human hair

Human hair dia, 50 μm

WATER SERVICES REQUIREMENTS 水服務標準

Parameter	Requirement	Unit
Water temperature	Water temperature in normally circulation is 14-16 degree Celsius. The water shall be immediately for the replacement of a water storage tank(可立即更換水櫃).	°C
Water Quality Requirements 水質標準		
Conductivity	The PW system shall meet European Pharmacopoeia (EP) Quality Control Requirements as follows:	μS/cm@25°C
Organic Carbon	Organic Carbon (TOC) shall be less than 0.5mg/L (500ppb).	mg/L
Bacteria	Water shall be treated with appropriate disinfection method to ensure the water is free from microorganisms. Conductivity measurement (COT) method.	CFU/100ml
Bacteria Endotoxins	Bacteria Endotoxins shall be less than 0.025IU/MI.	IU/MI
Nitrates	Nitrates shall be less than 0.2ppm.	ppm
Aluminum	Aluminum shall be less than 10ppb.	ppb

European Pharmacopoeia

Total Organic Carbon	≤ 0.5mg/L (500ppb)
Conductivity	≤ 1.3 μS/cm@25°C
Total Bacterial Count	<10CFU/100ml
Bacteria Endotoxins	<0.025IU/MI
Nitrates	≤ 0.2ppm
Aluminum	≤ 10ppb

Water Filtration Process

Multi - layer filter

Soft-water filter

Active carbon filter

Prefilter

RO (Reverse osmosis membrane)

Plate heat exchanger

Electrodialysis

Dual-tube heat exchange system

UV light w/o TOC

UV light w/ sterilization

Pre-process system

Dual-tube heat exchange system

RO system

EDI system

RO tank
PW tank

UV light

Stellar Beauty's Capabilities

1 Development and Production

- Customized product development
- Provide medical grade, professional salon grade, and pharmaceutical grade beauty products
- Provide product design service
- Stable consistent production capability
- GMP ISO 22716 certified world class production plant

2 Certification and Advisory

- Taiwanese medicinal grade cosmetic application
- Chinese import document processing apply
- Product import certificate for China
- Product functionality examination
- Import regulation consulting for ASEAN and EU
- Import regulation consulting for China

Stellar Beauty

Looking forward to future collaborations!
